BRAND CONTACT LENSES

ACUVUE®  
BRAND CONTACT LENSES

The #1 selling brand of contact  
lenses around the globe.

\* In 14 clinical studies posted on [www.clinicaltrials.gov](http://www.clinicaltrials.gov), The ACUVUE OASYS® Brand Family of contact lenses has never been beaten in comfort. \*[www.clinicaltrials.gov](http://www.clinicaltrials.gov) is a website maintained by the NIH. The 14 clinical studies evaluated subjective comfort as a primary or secondary endpoint for ACUVUE OASYS® Brand with HYDRACLEAR® PLUS Technology. Review conducted as of October 13, 2015.

\*\* Source: Euromonitor International Limited; current prices; fixed 2015 exchange rates; all channels, defined using standard Euromonitor definitions; 2014 retail value sales (rsp terms) of contact lenses, defined using standard Euromonitor definitions. Globally and World are defined as the top 32 countries in terms of 2014 contact lenses retail value sales (rsp terms). These countries captured 91.3% of 2014 contact lenses retail value sales (rsp terms).

ACUVUE OASYS® Brand Contact Lenses are indicated for vision correction for daily wear (worn while awake) or extended wear (worn while awake and asleep for up to 6 nights/7 days). **Relevant Warnings:** Patients should be cautioned that proper use and care of contact lenses are essential for the safe use of these products. Serious eye problems, including corneal ulcers, can develop rapidly and in rare cases lead to loss of vision. The risk of serious problems is greater for extended wear vs. daily wear and smoking increases this risk. **Side Effects:** Potential side effects include infiltrative keratitis; other less serious side effects include irritation, dryness, itching, or discomfort. **Relevant Precautions:** Patients should be instructed to immediately remove their lenses and promptly contact their eye care professional if they experience any problems. **Contraindications:** Lenses should not be prescribed for routine vision correction if patients have any eye infection, eye disease, inflammation, systemic disease that may be affected by or impact lens wear, severe dry eye, certain allergic conditions, use certain medications (ex. Some eye medications), experience eye discomfort, excessive tearing, redness, reduced corneal sensitivity or other eye problems.

**Additional Information:** It is recommended that the contact lens wearer first be evaluated on a daily wear schedule. If successful, then a gradual introduction of extended wear can be followed. Consult the package insert for complete information, or contact VISTAKON® Division of Johnson & Johnson Vision Care, Inc., by calling 1-800-843-2020 or by visiting [www.acuvueprofessional.com](http://www.acuvueprofessional.com).
