

- Breaking news!!!!!! We are happy to announce that for the practices that signed up at The Exchange and paid for the technology, FittingBox has agreed to an additional two months' extension of software licenses. The start date will now be January 1, 2016. This means that these practices have until end of year to complete set-up, become even more familiar with the product and utilize this product into their selling scenarios
- FittingBox has completed delivery to practices paid to date. If you are aware of any paid members who have not received the software by end of month, have them contact Dan Walker at dwalker@visionsource.com.
- FittingBox now offers automated credit card processing; purchasing members will receive an email with instructions to follow if they choose to pay by this method.
- A recorded webinar has been provided to help train members on the FittingBox technology. At the [link](#), click on the download button top-right of page and follow instructions.
- Participating frame vendors (Safilo, Marchon, Riserva, MODO, Zyloware, Westgroupe, REM Eyewear, Luxottica) have agreed to subsidize FittingBox cost based on member purchases.
- The Member Service Representatives should be the first point of contact with any questions. Also, informative tutorial videos can be found at fittingbox.com/vision-source.html.
